To Whom It May Concern,I too am a paying XM Satellite subscriber. My wife and I chose this system because of all the choices of music or news, including the traffic and weather. I drive a truck for a living, and there are a whole lot of drivers that rely on the traffic and weather well ahead of time due to schedules and so forth. It is ridiculous of the NAB to want to even consider the idea of taking away that right that we pay for. If we chose to pay for a better way of listening to the radio, and not have to listen to a bunch of garbage that is on there now, it is our choice. Freedom of speech is one of the things that I spent an entire Naval career protecting, and to have an organization like the NAB trying to take that away, this is a slap in the face of all that have protected that right over the last 220 years. Please for the sake of all Americans, get with the members who support this petition 04-160, and let them know it is NOT the will of XM subscribers to have this done to them.

Thank you.
